**We held our consortium meeting
in Wageningen!**

The three-day event took place at NIOO-KNAW on 23-25 April 2024 in Wageningen, the Netherlands. The project partners met face-to-face for the third time to discuss their future collaboration on the project and organise the plan of action for the short to long term goals of SOLO. If you missed our consortium meeting, you can read all about it on [SOLO's website](#).

One of the main outputs of our project - the SOLO roadmaps are now available on the [Soils for Europe platform](#)! The platform includes different roadmaps on the main knowledge gaps on research and innovation on soils across the different Mission Soil Objectives, created by SOLO's Think Tanks, which are available for public review. So far, we have six roadmaps available with three more on their way!
